

Project Summary To-Date

Based on StrongHearts calls documented March 6, 2017-June 30, 2021

In its first 27 months, the **StrongHearts Native Helpline** answered 10,399 calls from across the United States. StrongHearts is the first culturally-appropriate domestic violence and dating violence helpline for American Indians and Alaska Natives, offering peer support, crisis intervention, personalized safe-ty planning, and referrals to Tribal and Native supportive services to callers.

Launched in 2017, StrongHearts was created by and for Native Americans, a population with some of the highest rates of domestic violence in the United States. Tribes, as sovereign nations, face significant jurisdictional hurdles when addressing violent crimes in their communities. Gaps in Native-centered supportive services create unique barriers for Native victims seeking help.
